Objective

Motivated individual with a passion for web development and the MERN stack. Self-taught developer with a commitment to continuous learning and improvement. Seeking an opportunity to apply my skills and grow as a Full Stack Developer in a collaborative and innovative environment.

Technical Skills

- Front-End: HTML, CSS, JavaScript, React.js
- Back-End: Node.js, Express.js
- Databases: MongoDB
- Version Control: Git, GitHub
- Other Tools: Postman, Visual Studio Code, npm

Projects

Project 1: FoodOrderingApp

Built a full-stack food ordering application with the MERN stack.
Implemented user authentication with JWT.
Integrated CRUD operations for tasks and users.
Used MongoDB for data storage and Express.js for API endpoints.

Project 2: E-commerce Web App

Developed a simple e-commerce website with product listings and shopping cart functionality.
Created front-end using React.js and back-end API with Node.js and Express.js.
Stored product and user data in MongoDB.
